

TIWAL 3 BOOST YOUR MOORING EXPERIENCE

SAILING WITH YOUR TIWAL 3

BOOST YOUR MOORING EXPERIENCE

TIWAL 3 is the ideal water toy to boost your mooring experience. Beginners or seasoned skippers, adults and children, TIWAL 3 will delight everyone. On calm waters, the V-shaped hull glides along easily. It is also happy surfing the waves. The daggerboard means it also sails well upwind. In fact, nothing can stop it!

JUST GOOD FUN

No need to be a seasoned skipper to have fun on a TIWAL 3. TIWAL 3 handles really easily. There are only two controls in sailing: direction and speed.

Its lightweight structure makes it incredibly responsive: one push on the tiller, and it tacks all by itself. TIWAL 3 is so easy to sail, it can even be used to learn on. With your family or friends, double or single-handed, TIWAL 3 is fun for everyone, whether you are a novice or an old sea dog. And you can carry up to 440lbs (200kg) on board.

REMARKABLE SAILING QUALITIES

TIWAL 3 is made for fun! Lightweight (110lbs / 50kg total), responsive, playful... even the most seasoned skippers will feel real pleasure (fine sail settings, handling, responsiveness). Hiking out off the wings, specialists will get a thrill skimming the water and appreciate the power of the gaff rig combined with the carbon mast.

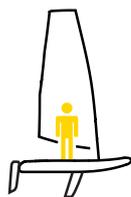

INFLATABLE IS COMFORTABLE

Whatever the conditions, one thing never changes: the comfort on board.

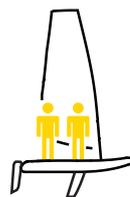

TIWAL 3's hull is wide and open, offering an uncluttered area where you can find the right position or move around without knocking yourself out as there is no boom! While the wings are appreciated by sporty sailors for picking up speed, they also make comfortable backrests for more fair-weather outings (optional hiking rack pads available).

STORAGE & HANDLING

THE 2 BAGS IN DETAIL

TIWAL 3 only weighs 110 lbs (50kg) fully assembled, but you should count about 62 lbs (28kg) per bag for transport (*this includes the weight of the bags and the pumps with the weight of the boat). In the first bag you will find the hull, and in the second the framework and fittings.

- ① Hull
- ② Framework, mast, sail, rudder, daggerboard

EASY STORAGE

Packed in its two bags or inflated, TIWAL 3 has a place wherever you go. Store it easily in the garage with the other water toys or keep it inflated on the deck, on your tender, or even on the tender dock.

EASY HANDLING

TIWAL 3 is light and easy to handle. Simply put it in the water from your platform. If you cannot use a platform, you can also use a halyard. The crew can now rediscover the joys of anchoring offshore.

ASSEMBLING YOUR TIWAL

In the water in only 20 minutes! Pleasure is the only keyword with TIWAL! Assembling your TIWAL 3 is child's play. Few parts, very easy assembly, parts that fit together smoothly and accurately, high-quality finish... in the time it takes to say it, you're already in the water!

NO STRESS, NO EFFORT AND ESPECIALLY NO TOOLS

- 1 Partially inflate the hull using the low-pressure electrical pump (included with each boat).
- 2 Install the daggerboard case in the hull.
- 3 Assemble the framework. In just a few clicks, all the elements fit together easily.
- 4 Attach the framework to the hull using the hook & loop straps.
- 5 Complete inflation using the manual pump (included in your pack) to reach a pressure of 11 psi (0.75 bar).
- 6 Assemble the 5 pieces of the mast, pull the sail onto the mast and attach everything to the framework.

ZOOM ON INFLATION

The TIWAL 3 hull is inflated in 2 steps. Firstly using the low-pressure electrical pump, enabling you to install the framework, the daggerboard case and the mast, without forcing anything. The low-pressure electric pump (included with the boat) can be charged on the mains electricity.

Then use the manual high-pressure pump (included with the boat) to reach the required pressure for perfect inflation of the hull.

If you prefer to save your energy for sailing, a rechargeable high-pressure pump is available as an option. It can be used to fully inflate the hull without using the manual pump.

ASSEMBLY RECORDS TO BEAT

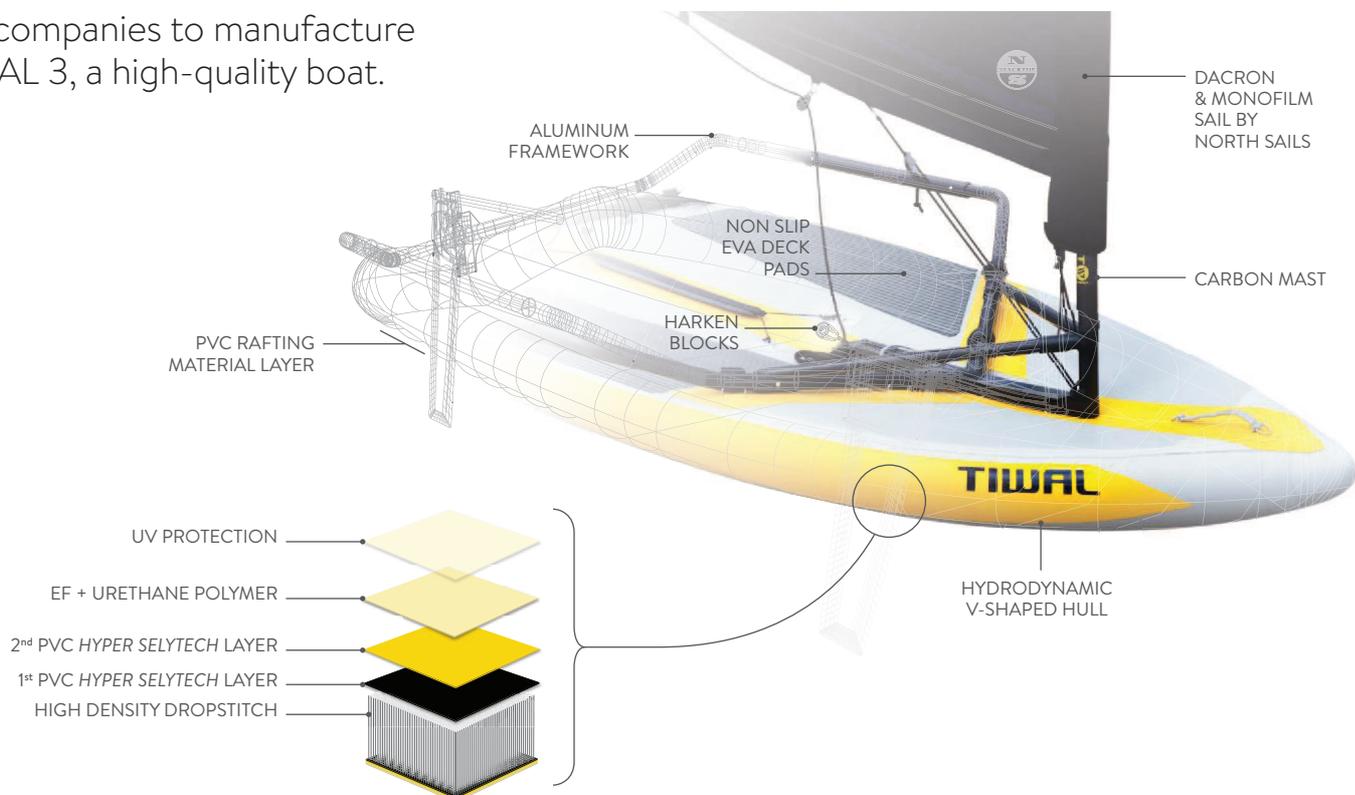

10 min 40 sec in solo
6 min 28 sec double-
handed

A DINGHY WITH A BIG RIG

The TIWAL crew is expert in design and in sharing their industrial know-how with over 50 companies to manufacture TIWAL 3, a high-quality boat.

- ➔ Dacron & Monofilm Sails by North Sails
- ➔ Harken Blocks
- ➔ Standard / Sailing Category: D

- ➔ Boat Weight: 110 lbs (50 kg)
- ➔ Maximum Load: 440 lbs (200 kg) / 2 adults or 1 adult + 2 children
- ➔ Maximum Load on the wings: 220 lbs (100 kg) / 1 adult
- ➔ Airtight Compartments: 2

- ➔ Bag for the hull: 57" x 16" x 14" / 62 lbs (150 x 40 x 35 cm / 28 kg)
- ➔ Bag for the sail and the structure: 57" x 16" x 14" / 62 lbs (150 x 40 x 35 cm / 28 kg)

TESTIMONIALS & AWARDS

“ The whole experience is one of minimum fuss minimum rigging and maximum fun. It was awesome, skimming and planing across the big sea (...). I loved it.”

BEAR GRYLLES in *Boat International Magazine*

“

(...) very responsive, quick in the wind and quite stable. We have had such fun with our Tiwal that we are even thinking of buying a second one! To sum up my experience with the Tiwal dinghy? In one word? BRILLIANT!”

JONATHAN BECKETT
Chief Executive **BURGESS**

“

Whether you are a total beginner or an experienced sailor looking to have some fun, it's a great asset. Sailing the Tiwal brings back my youth. All of my family and friends are now enjoying her as well!”

ANDREW WINCH
Super-Yacht Designer

“

The thing was a blast I couldn't believe how well it sailed. You could have some serious fun with this, especially in big breeze.”

CHUCK ALLEN Judge from 2014
Boat of the Year Sailing World

“

(...) One of our favorite toys on board is the beautiful Tiwal (...). It's a crowd favorite with our guests and crew and we have a lot of fun with it. Stores up nice and easily, easy to pack up. Terrifically fun to use.”

SELECT YOUR TIWAL

**TIWAL 3 + 56 sq.ft. SAIL
(5.2m²)**

The 56 sq.ft. (5.2m²) sail is a multipurpose sail. It works well for adults in moderate to fresh breeze or for kids in various wind condition.

**TIWAL 3 + 75 sq.ft. SAIL
(7m²)**

The 75 sq.ft. (7m²) is a powerful sail for either single or double handed adult sailing in light to moderate breeze.

**75/56 sq.ft.
REEFABLE SAIL**

The 75/56 sq.ft. (7m² / 5.2m²) reefable sail is a great all-round sail. Its surface adapts to the wind strength whether you have kids or adults on board, or whether you sail single handed or double handed.

WHEN THE WIND PICKS UP SO DOES THE FUN

TIWAL 3 is not shy! Even in strong winds, TIWAL 3 is happy. The carbon mast takes on gusts without a care. The very stable hull offers excellent handling, even in the swell.

Depending on the wind, TIWAL 3 can carry a small or large mainsail. The 75 sq.ft. (7m²) sail is great for single-handed sailing in light breezes whereas the 56 sq. ft. (5.2m²) sail is better for kids or in strong winds.
